

# A Stronger Magnet. A Unique Code. Your Key To A Security Advantage.

The use of counterfeit, stolen or illegally acquired detachers is on the rise and they are being used to defeat “on-product” solutions leaving some retailers with the desire to have even stronger security. Checkpoint has designed a solution to the problem, giving you an innovative and cost-effective way to enhance your security and take it to a whole new level with S3vx.

With the new S3vx Key, the “x” stands for an extra-strength magnet that gives it greater mechanical integrity. They also have the ability to be programmed with a unique, store-specific code. That’s where the “v” comes in – the advanced encryption technology means the S3vx Key sends the “verification” code to the S3vx device to disarm the alarm, during which time the device can then be opened with the extra-strength S3x magnet. If the device is opened without first being disarmed by the verification code, the device will alarm for five minutes or until it receives a valid verification code.

**S3vx devices will alarm unless disarmed and opened by the S3vx Key that has the same unique code**

**If stolen, the S3vx Key verification code will be erased automatically to prevent use anywhere else**

**S3vx Keys and S3vx devices can be reprogrammed with a new code if being transferred to another store**

**Once programmed, the S3vx Counter Key will retain the verification code while the portable key will require daily re-enabling for enhanced security**

**Stolen or illegally acquired S3 Keys will not be able to open S3vx devices**

**S3vx Keys are backwards compatible and able to open any current S3 solutions**

Checkpoint has the most innovative range of keys and security devices to alleviate your shrink problems and protect your profits.

## S3vx Keepers®

### KEY FEATURES:

- 95 dBA alarm provides a powerful warning in the event of tampering or theft
- Flashing LED light creates both a strong visual deterrent and indicates active battery
- Isolated sound chamber provides added protection against tampering
- Hang Tab compatible
- AVM606: SAP# 10115552 - AM • SAP# 10115555 - RF
- AVM806: SAP# 10115537 - AM • SAP# 10115551 - RF
- AVM966: SAP# 10115553 - AM • SAP# 10115554 - RF

## S3vx Mini Spider Wrap®

### KEY FEATURES:

- 7x7 strand, non-tangle aircraft grade cable provides coverage to a wide array of small to medium packaged goods
- 95 dBA alarm provides a powerful warning in the event of tampering or theft
- Flashing LED light creates both a strong visual deterrent and indicates active battery
- SAP# 10117815 - AM • SAP# 10117816 - RF

## S3vx Spider Wrap®

### KEY FEATURES:

- 7x7 strand, non-tangle aircraft grade cable provides coverage to a wide array of medium to large packaged goods
- 95 dBA alarm provides a powerful warning in the event of tampering or theft
- Flashing LED light creates both a strong visual deterrent and indicates active battery
- 70": SAP# 10117821 - AM • SAP# 10117822 - RF
- 102": SAP# 10118221 - AM • SAP# 10118222 - RF

## S3vx Mini CableLok®

### KEY FEATURES:

- 7x7 strand, non-tangle aircraft grade cable
- 95 dBA alarm
- Flashing LED creates a strong visual deterrent
- Isolated sound chamber provides added protection against tampering
- 3.5": SAP# 10112525 - AM • SAP# 10112523 - RF
- 6": SAP# 10112479 - AM • SAP# 10112478 - RF

## S3vx Keys

### KEY FEATURES:

- Programmable Keys open all S3vx devices
- Key is backwards compatible and will open existing S3 devices
- Counter Key can be locked when not in use
- Serial number provides added security
- Counter: SAP# 10119723 • Portable: SAP# 10119724
- Manager: SAP# 10112633 • User: SAP# 10112634
